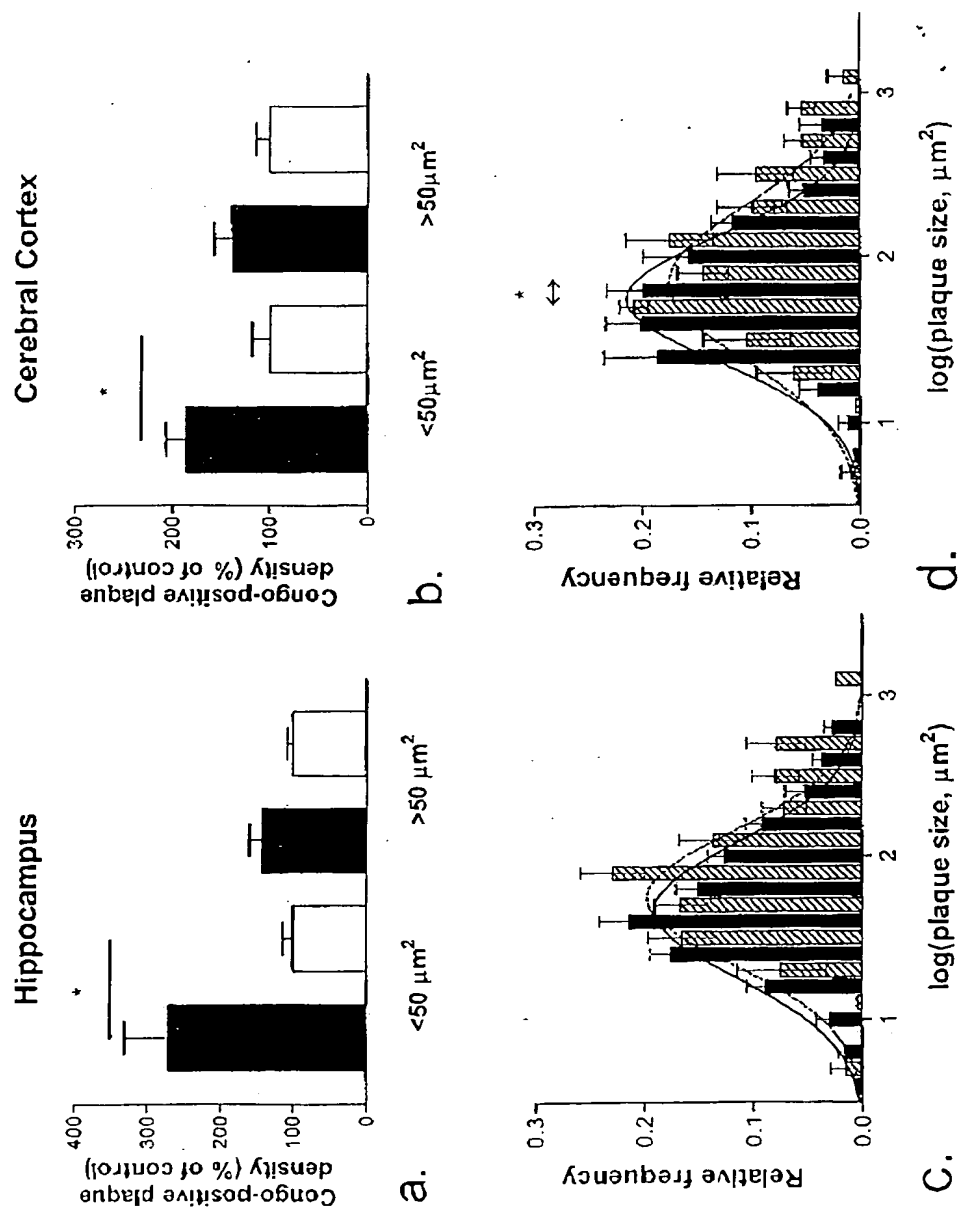

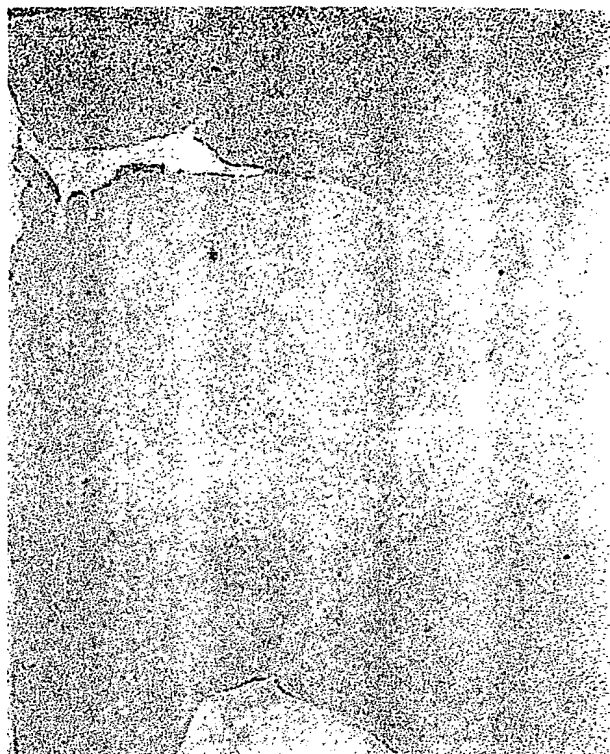

FIGURE 5

A grainy, black and white photograph of a textured surface, possibly a wall or ceiling. The surface has a mottled, speckled appearance. On the left side, there is a large, irregular white patch that looks like a hole or a missing section of the material. On the right side, there is a small, dark, rectangular object, possibly a piece of tape or a small hole. The overall image is very noisy and has a high level of contrast.

This is a high-contrast, black and white image showing a dense, textured surface. The texture is grainy and noisy, with a mix of dark and light pixels. In the lower-left corner, there is a bright, irregularly shaped area that appears to be a highlight or a reflection. The overall appearance is that of a heavily textured surface, possibly a wall or a large object, captured in a high-contrast, black and white format.

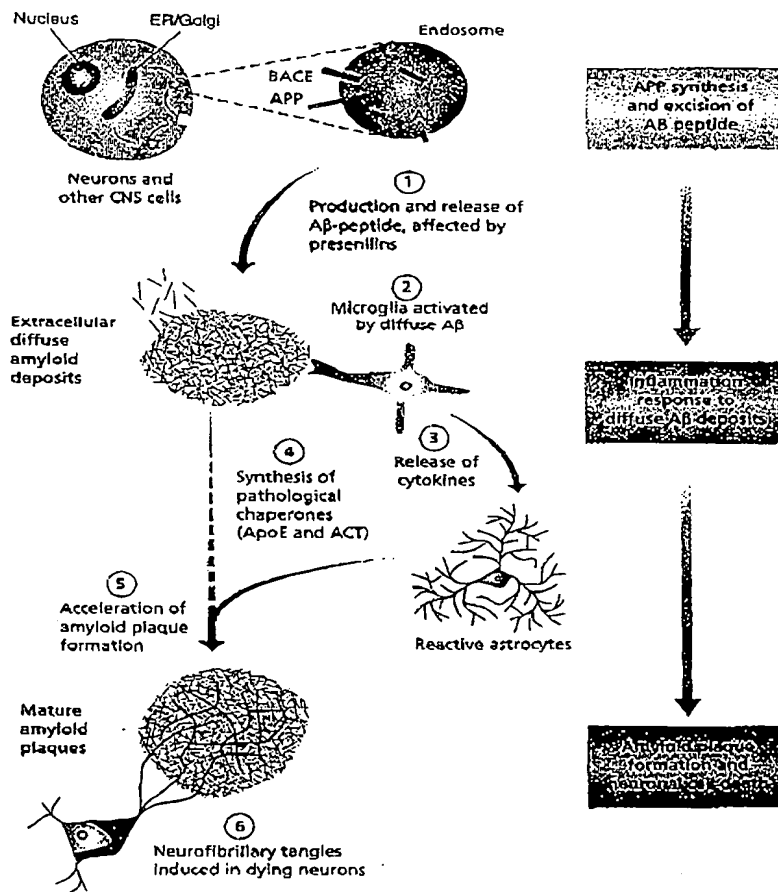

FIGURE 8

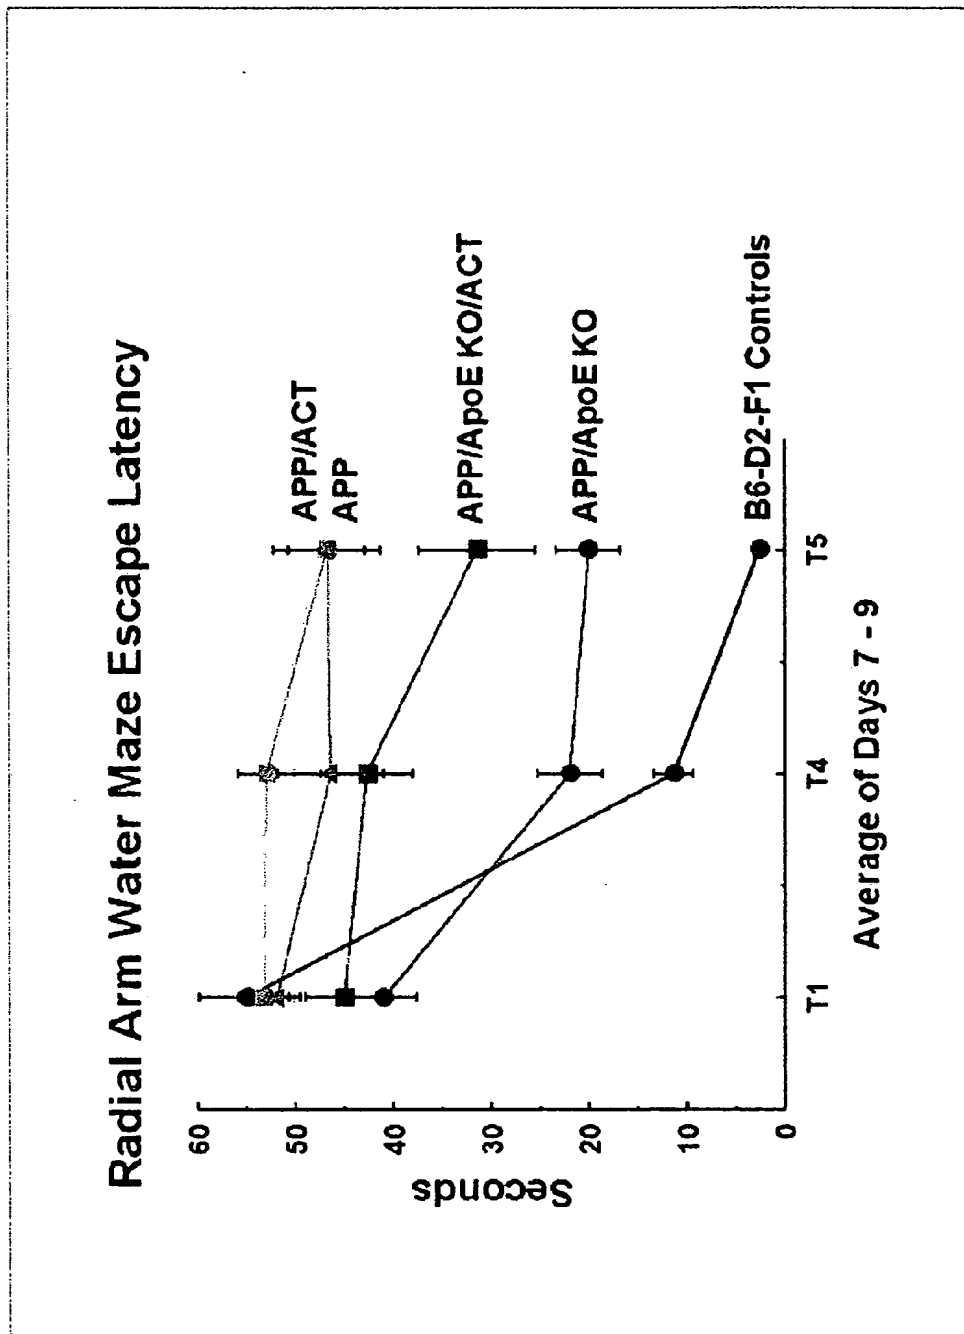

FIGURE 9

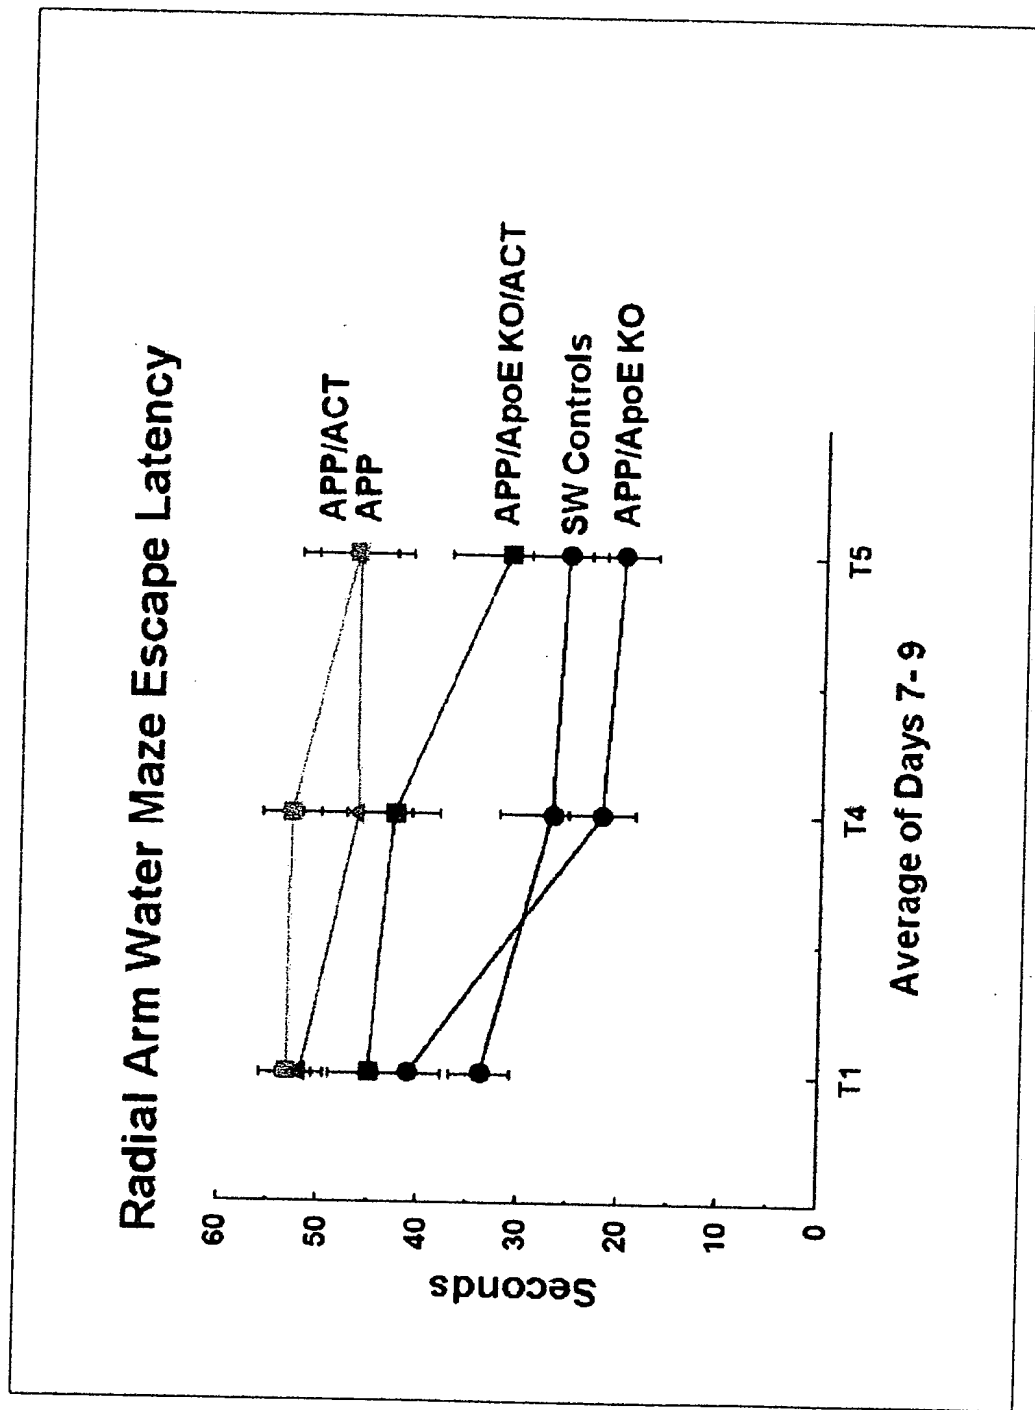

FIGURE 10

This image is a dark, grainy, black and white scan, likely of a document page. It is heavily degraded with significant noise, including numerous white specks and artifacts. Faint, illegible patterns and shapes are visible throughout the frame, but no text or clear figures can be discerned.
